**Hatteras**

**43 Double Cabin**

## She has what every close

Does your family have fun doing things together? Then take them aboard a Hatteras 43 Double Cabin.

They'll have the time of their lives.

Our 43 DC is designed and built to take a lot of living. Without a lot of maintenance.

The salon is, like a family room, a space to which a family just naturally gravitates. It's large, bright, casual. There's plenty of storage in the cabin sides, overhead AC/DC lighting, and dinette table. And large, screened windows to let in great gobs of sea air.

Carpeting and drapes in the salon are standard and available in a wide variety of colors, patterns and textures.

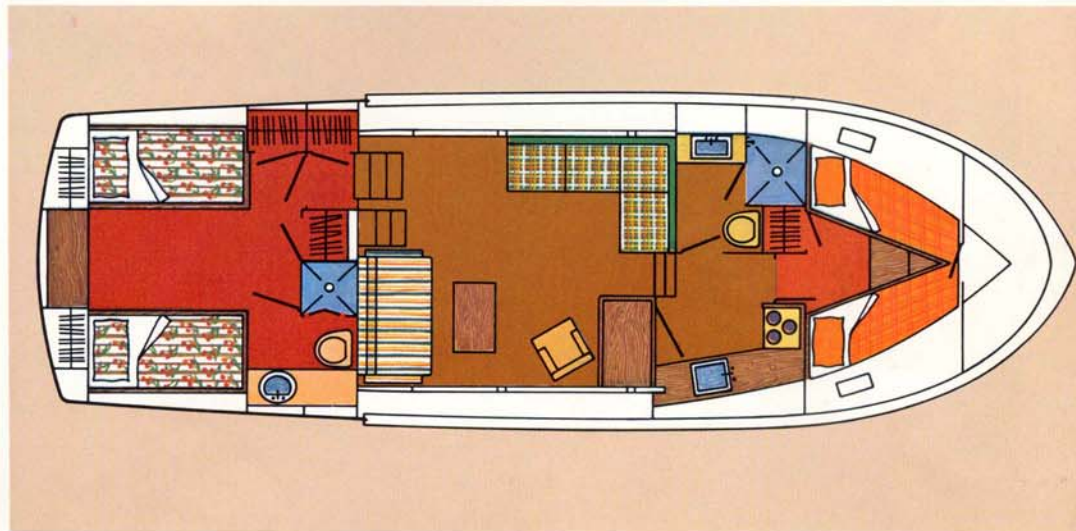

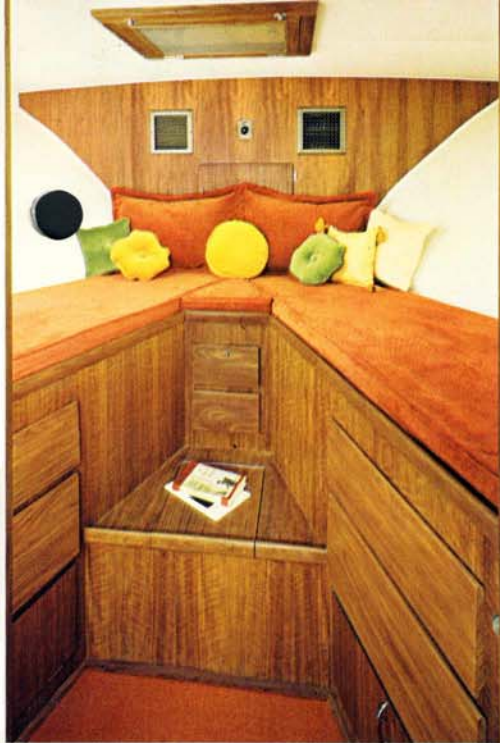

Just forward of the salon is a complete galley — electric range and oven with rotisserie, family-sized refrigerator/freezer, stainless steel sink, pressure hot and cold water system, and a range hood with exhaust fan.

It's also a roomy galley — with good storage space — and open to the salon.

Adding to the hominess of these two areas — and the rest of the interior — is wood paneling. Rich, rare wood; hand-fitted and hand-finished with care and craftsmanship that's even more rare.

Our 43 has other things a close family will like. Like privacy.

The main stateroom is aft of the salon. It has twin berths; bulkhead and full-length hanging lockers; built-in 6-drawer dresser; screened portlights to port, starboard and aft.

## The family will enjoy: Room.

The bow stateroom, forward of the salon and galley, has vee-berths with reading lights above and storage below. Plus a hanging locker.

And both staterooms have their own heads with stall shower.

Let's go now to the foundation of the boat. To those things that make a Hatteras a Hatteras, it a 43 Double Cabin, 58 Long Range Cruiser or 70 Motor Yacht.

First, she's a great sea boat. Rugged. Stable. Responsive. So, cruising is a task she breezes through. Her fiberglass hull and superstructure is protected

not only with gel coat, but also with a tough polyurethane skin.

Second, she's outfitted superbly. And with forethought, as a read-through of her specifications and equipment will attest. Let us break out one example for you: The Hatteras Master Electrical Panel.

It gives you complete control over a sophisticated AC/DC electrical system. Because it's de-

signed and engineered to be understood and operated by boaters.

And last, the quality lasts. And so does the value.

So see your Hatteras dealer.

Then gather your clan around you — on the aft deck (There's plenty of room) or on the optional fly bridge. Discuss it among yourselves.

We think you'll decide that the next addition to your family should be our 43 Double Cabin.
