65 CONVERTIBLE

**THE FISHABILITY
IS AWESOME...AND SO ARE
THE COMFORTS.**

Here's a big fishing yacht that's beautifully proportioned, with a flair for the dramatic. It's the ideal combination of superb fishability and livability — and is as powerful as it looks.

Our proven 65 Convertible features a Hatteras Hargrave modified-V hull, its sharp entry and broad flare help keep you high and dry, when you need it most. Aft, the modified-V shape flattens slightly at the chines to provide responsiveness and balanced performance in a variety of sea conditions. When the going gets tough, you can feel the excellence of Hatteras engineering. The rock-solid, all hand-laid fiberglass hull bottom is backed up by an incredibly strong stringer network engineered to distribute sea loads and the power provided by up to 2700 total shaft horsepower.

The molded-in pulpit and rakish bow leads aft to a step-down sheer and ultra large cockpit — a sleek integrated look that continues in both the open *and* the optional enclosed bridge designs.

The cockpit is all business, the result of Hatteras' extensive experience. With an all fiberglass seamless sole, this cockpit stretches 13 feet long and 175 square feet! There's a 38" transom door and gate, molded-in fish box in the transom coaming, a bait make-up station, live bait well, twin-compartment stainless steel refrigerator/freezer, and additional fish boxes in the sole (one can be refrigerated). There is also room for optional cockpit controls and much, much more. This one's got it all!

The Hatteras 65 Convertible has been an overwhelming success since day one. And that's not a fish story.

WHAT WOULD YOU EXPECT IN A HATTERAS 65C? THAT'S ONLY THE BEGINNING.

Now move inside, and see just how much Hatteras' ingenuity has done with a large 18-foot beam and a fresh, newly redesigned interior.

The salon is casual, contemporary, and comfortable, with recessed lighting and an optional light ash wood finish for added flair. Large windows aft add to the feeling of spaciousness.

You'll also enjoy the after-battle luxury of a wet bar with icemaker and built-in entertainment center, with large screen stereo TV, VCR and AM/FM cassette system.

The spaciousness and airy feeling of the standard salon is enhanced by the large window areas. And for those who love to cook, time spent in this galley will be thoroughly enjoyable, with enough space, storage, and large refrigerator/freezer to serve the whole crew. The U-shaped dinette is ideal for dining or laying out your charts while enjoying a cup of coffee.

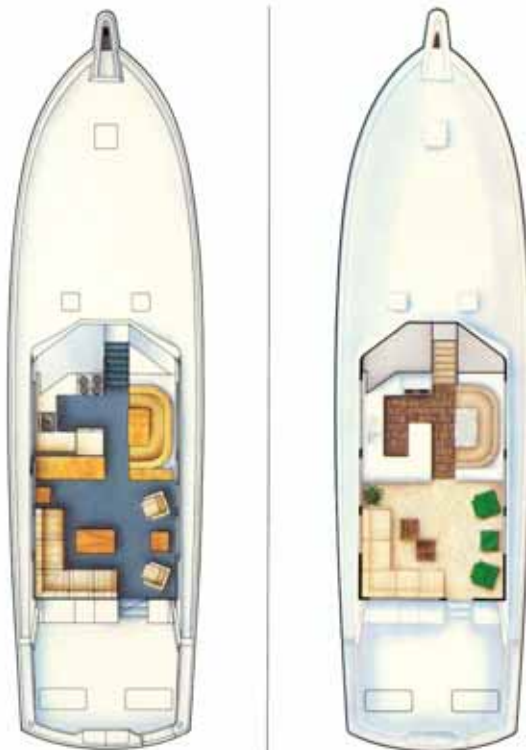

Some of the best entertaining, of course, happens at dinner *after* the battle, and you'll be well prepared. Light colored formicas and flooring highlight the U-shaped dinette area and the complete galley — both exceptional.

For today's lifestyles, the 65C offers an optional galley design that's open to the salon, with a serving island across from the dinette — for one spacious room so everyone can enjoy being together.

A microwave/convection oven, a four-burner 240-volt cooktop, dishwasher and loads of counter and storage space are included.

Hatteras' one-great-room effect has never been this great! The new optional open galley makes for easy living and good conversations. The entertainment center is just forward of the dinette, to starboard. The large-screen stereo TV can be enjoyed from the luxurious salon.

The contemporary design of the U-shaped dinette area lets you enjoy casual snacks or an elegant dinner, conveniently.

The flybridge is your complete command center at sea with both a cruising helm station forward and a fishing station aft — with a good view of all the action in the cockpit. There's great seating in both directions. Best of all, you have the option of having the flybridge completely enclosed and air-conditioned!

The standard galley plan, left, and the optional open galley plan, right. The 65C is perfectly suited to your liveaboard needs.

THE STATEROOMS OFFER COMFORT AND DIMENSIONS BEYOND EXPECTATION.

In the privacy of your own personal space, you'll know how good the good life can be. The remarkable dimensions and livability we've provided in these staterooms help assure you of the ultimate enjoyment of your ultimate convertible.

The forward master stateroom features a queen-size berth, a large cedar-lined closet, and plenty of dresser storage. The private master head features a smart, molded composite countertop, durable vinyl flooring, and a tub/shower combination with whirlpool jets.

And when your guests retire to *their* stateroom to port, they'll soon learn you're just as thoughtful of them. A unique bed arrangement quickly converts from queen to twins: a specially designed and proven track and roller system allows for either. And like all the heads

Storage space and luxury abound in the master stateroom. There's no doubt that we want the owner of this fish-fighter to have the best.

The quarters for the crew (starboard) are directly accessible to the salon and utility room for an extra measure of privacy.

on the 65C, the adjoining head is large, bright — and air-conditioned.

Your crew should have a stateroom with easy access from the salon. They do. Hatteras proportions provide the room that's needed for long fishing trips and cruises. Two berths, storage and a comfortable environment reward your crew after a hard day's work. Their own head with big stall shower is adjacent. Located inboard is a utility room, with stand-up freezer, washer/dryer and lots of space for stowing those provisions essential on extended trips.

To sum up, the Hatteras 65C is big on all the things Hatteras is famous for: the electrical and mechanical systems, the craftsmanship, the power options, uncompromising fishability and intelligent live-aboard comfort.

If you haven't seen the master stateroom, you'd think this is it. No, it's the guest stateroom (port). It features a unique system that lets you change from twin berths to queen bed — in seconds.

The master head; the kind of maxi-luxury that separates Hatteras from the ordinary ... everywhere you look.

The exceptional floor plan: three staterooms, three heads, and everything else a great sportfishing machine should be.
